## Leaders in Low Current & Integrated Security Systems.

Advanced Vanguard Est. has been providing Low Current Systems and Integrated Security systems since 2012. Advanced Vanguard Est. is dedicated to providing top quality Low Current and Integrated Security systems and support to its clients. Our company specializes in designing and building intelligent security solutions for both public and privately owned companies, healthcare organizations, educational facilities, and government agencies. With a client base as diverse as ours, we are often faced with the challenge of finding the perfect security solution to meet the needs of our client. This is a challenge we face enthusiastically. With our strong technical background, understanding of networking and intelligent security solutions it enables us to build sophisticated surveillance applications that are available anytime and from anywhere. Advanced Vanguard Est. has a dedicated professional team of field technicians, sales personnel, engineers and administrative support staff that work together seamlessly to ensure that our clients are kept abreast on all aspects of their projects and those projects are completed within all established timeframes. To make certain that our clients are receiving outstanding support and service, our team is researching a broad range of Low Current and security solutions and receive continued training throughout the year.

## Mission Statement

**We looking forward to being among the top 10 Low Current & Integrated Security companies in Saudi Arabia.**

# AVE

### HOME THEATERS

We will custom tailor a high-quality home system to meet your specific taste and lifestyle. Our talented team of professional engineers has decades of experience delivering the highest quality home system solutions.

### AUDIO CONFERENCE SYSTEM

Meetings with attendees residing in other locations and foreign countries, telephone conferences held from mobile offices, communication with investors and the press—all this is an integral part of the modern working life. In order to convey all information in spite of long distances or vast audiences using the right equipment is decisive.

### DIGITAL SIGNAGE

Our digital sign system can be used in any environment... lobby reception, student lounges, cafeterias, break rooms, call centers, elevator banks, manufacturing floors, meeting rooms...virtually any public space or network.

### IPTV

Our hotel TV and IPTV solutions are focusing on in-room entertainment and interactive information. Our hotel TV system supports customizable user interface, which means that the whole user experience can be branded with the hotels logo and colors - all the way to the menus and services.

### PUBLIC ADDRESS

We can offer a unique, high-quality Public Address and Evacuation System that seamlessly integrates with additional equipment to deliver high-quality music. Its highly flexible system architecture makes it ideal for small to medium-sized applications. This includes small- to mid-sized offices, regional airports, mid-sized hotels, factories, schools and department stores.

## IT & Telecommunication

We have professional engineers who can help you in the selection of the best solutions for your 2 way Radio communication systems and your IT requirements.

### **AMATEUR RADIO AND PROFESSIONAL RADIOS**

We offer Operations-critical radio products, designed for professional and commercial communications. We also carry a wide range of Amateur Radio products ranging from base HF Radios to 2 way handheld VHF and UHF radios and accessories.

### **DATA CENTERS**

Our team is comprised of a dedicated group of experienced, professional reporters and editors as well as technologists who work continually to cover the ever-changing landscape of the data center industry.

### **ACTIVE DATA COMPONENTS**

We've got products that can increase productivity, inspire innovation, and grow your business. When you partner with Advanced Vanguard Est. ( AVE ), you can expect more than just great service. We provide you with an unparalleled level of support throughout the partnership experience, including a wide array of services and latest routing and switching products

### **PASSIVE DATA COMPONENTS**

Complete line of high-density Plug and Play solutions supporting up to 40 and 100Gb/s. Comprehensive line of RIC, SWIC and FCP rack and wall-mount fiber enclosures. Passive Optical LAN splitters and enclosures
